INTRODUCTION

In the summer of 1980 the International Peace Gardens distributed a questionnaire to visitors to determine some basic visitor and trip characteristics. Travel Manitoba was approached to undertake the questionnaire coding, data processing and statistical analysis.

Summary

- About two-thirds of the visitors to the Peace Gardens are of U.S. origins.

- A large proportion of visitors to the Peace Gardens are in the 30-39 years of age group.

- There are still significant proportions in other age groups but there are differences between Canada and the U.S. visitors.

- For almost three-quarters of the visitors this was their first trip to the Peace Gardens.

- A vast majority of visitors to the Peace Gardens are same-day visitors who remain in the Gardens an average of 2.1 hours.

- Most U.S. visitors stayed in the U.S. the night before and after visiting the Peace Gardens.

- Most Canadian visitors stayed in Canada the night before and after visiting the Peace Gardens.

- Slightly more than half of the comments made by respondents were negative.

- The most common criticism was the unsatisfactory quality of the flowers and grounds.

VISITOR AND TRIP STATISTICS

1) Origin of Visitors to the Peace Gardens

- A majority of Peace Garden visitors were from the U.S.

- About 63.0% of the visitors surveyed were from the U.S. while 35.0% were from Canada. The remaining 2% represented foreign visitors (TABLE I).

- The largest proportions of visitors originated from North Dakota (18.7%) and other Manitoba (11.4%) locations.

- Next in significance were visitors from Minnesota, accounting for 9.4% of the total followed, by Winnipeg with 8.6%.

TABLE 1

ORIGIN OF VISITORS TO THE PEACE GARDENS

ORIGIN	PERCENT OF TOTAL VISITORS	
WINNIPEG	8.6	
OTHER MANITOBA	11.4	
SASKATCHEWAN	5.7	
ALBERTA	3.4	
BRITISH COLUMBIA	1.0	
N.W.T.	0.2	
ONTARIO	4.1	
QUEBEC	0.3	
ATLANTIC PROVINCES	0.3	
TOTAL CANADIAN	35.0	
NORTH DAKOTA	18.7	
SOUTH DAKOTA	2.5	
MONTANA	0.5	
MINNESOTA	9.4	
OTHER U.S.A.	31.9	
TOTAL U.S.A.	63.0	
FOREIGN	2.0	
TOTAL VISITORS	100.0	1,650

2) Age Group of Respondents

- The largest proportion of visitors to the Peace Gardens as identified by the survey (39.5%), belonged to the 30-39 years of age group. (TABLE 2).

- About 23% of the visitors surveyed were in the 60 years and over age group.

- Of the Canadian visitors surveyed, the largest proportions occurred in the 30-39 years of age group (47.1%) and the 40-49 years of age group (16.2%).

- Of the United States visitors surveyed, the largest proportions occurred in the 30-39 years of age group (34.7%) and the 60 years and over age group (28.4%).

- Promotional activities for the Peace Gardens would focus on the primary age group of 30-39 years of age in both the U.S. and Canada.

- Secondary promotional activities would be spread between the 60 years and over age group in the U.S. and the 40-49 years of age group in Canada.

- Manitoba (including Winnipeg) and North Dakota would be the focus for such promotional activities.

3) Number of Visits to the Peace Gardens

- A majority of visitors (70.4%) indicated that this was their first visit to the Peace Gardens (TABLE 3).

- Of the U.S. residents surveyed, 74.2% indicated that this was their first visit to the Peace Gardens.

- Of the Canadian residents surveyed, 63.0% indicated a first time visit to the Peace Gardens.

- In comparative terms, a larger proportion of U.S. visitors were visiting the Peace Gardens for the first time than Canadian visitors.

- About 82% of the foreign (countries other than the U.S.) visitors indicated that this was their first time visit to the Peace Gardens.

4) Length of Stay

- About 92% of the visitors to the Peace Gardens surveyed stayed less than one night, in other words they arrive and depart on the same day (TABLE 4).

- The majority of visitors stayed between one to five hours, (80.8%) with the largest proportion (34.8%) remaining in the Peace Gardens for two hours.

- The average length of stay* for same day visitors is 2.1 hours.

- The average length of stay is a measure of the ability of an attraction to 'hold' visitors attention.

- Unless Peace Gardens management want to increase the time a visitor spends in the area, the planning of events and activities (such as tours) should revolve around the average length of stay of the majority of visitors.

* (This figure is derived by multiplying the number of visitors by the length of time each stayed, stays of 3-5 hours are averaged at 4 and 6-8 hours at 7 hours, and dividing the total visitor hours by the number of visitors.)

5) Location stayed at Last Night

- Visitors to the Peace Gardens stayed primarily in North Dakota (47.8%) and Manitoba (30.8%) on the night prior to visiting the Peace Gardens (TABLE 5).

- As one would expect the majority of North Dakotans stayed in North Dakota the night prior to visiting the Peace Gardens.

- Manitoban's likewise, stayed in Manitoba the night prior to visiting the Peace Gardens.

7) The Location Respondents Stayed at Last Night Compared to the Locations Respondents were Planning to Stay at Tonight for Each Home Location

- Of the Winnipeg residents surveyed (SEE Appendix I), 30.8% stayed in Other Manitoba locations the night prior to and the night after visiting the Peace Gardens.

- Smaller proportions (22.6%) stayed in Winnipeg the night before and after visiting the Peace Gardens.

- Other Manitoba residents primarily stayed at home (39.5%) the night before and after visiting the Peace Gardens.

- Most other Canadian visitors stayed in other Manitoba locations on the nights before and after visiting the Peace Gardens.

- The majority of North Dakotan respondents (32.8%) stayed at home the night before and after visiting the Peace Gardens.

- The majority of Other U.S.A. respondents (39.9%) stayed in North Dakota the night before and after visiting the Peace Gardens.

- The largest proportion of foreign visitors (43.3%) stayed in Other Manitoba locations on the night before and after visiting the Peace Gardens.

- There is a large potential overnight U.S. visitor market that needs to be attracted beyond the Peace Garden for an overnight stay in Manitoba.

8) Comments of Respondents

- About 52% of the comments in regard to the Peace Gardens were negative remarks (TABLE 7).

- Of the Canadian visitors surveyed, the largest proportion of negative comments were directed at the unsatisfactory flowers and grounds.

- U.S. respondent's comments were divided nearly equally between criticisms on the unsatisfactory flowers and grounds and the category other criticisms.

- U.S. visitors made proportionately more positive comments than Canadian visitors.

APPENDIX II

HOW TO READ THE COMPUTER GENERATED TABLES INCORPORATED IN THIS REPORT.

APPENDIX II

HOW TO READ THE COMPUTER GENERATED TABLES INCORPORATED IN THIS REPORT

- Each computer generated table in this report is a cross-tabulation of two sets of variables.

- When one variable in the vertical axis coincides with another variable in the horizontal axis it forms a "cell" (box) of values.

- Each "cell" contains the following types of values: frequency, percent, row percent and column percent.

- The order of these types of variables are always found in the upper left open cell of the MATRIX.

- Frequency: is the number count of the occurrences of the coincidence of the two variables.

- Percent: Is the percentage the cell frequency is of the total count.

- Row percent: Is the percentage the cell frequency is of the total row count for the horizontal variable.

- Column percent: Is the percentage the cell frequency is of the total column count for the vertical variable.

EXAMPLE:

- TABLE 5 will be used for reference in this example.

- TABLE 5 is a cross tabulation of the origin of visitors (Horizontal variable) by the location the visitor stayed at last night. (Vertical Variable)

- ORIGIN: North Dakota

First Cell Looks Like:

FREQUENCY PERCENT ROW PCT COL PCT	WINNIPEG
NORTH DAKOTA	7 0.42 2.27 6.09

- Of all the North Dakota visitors surveyed 7 stayed in Winnipeg last night.

- This represents 0.42% of the total visitors surveyed.

- This represents 2.27% of all North Dakota visitors surveyed.

- This represents 6.09% of the visitors that stayed in Winnipeg last night.
